

How can I renew my items?

You can use the [online interface](#) to renew your items, or you can call, email, or stop by your local library. To log in online, use your 14-digit barcode and the last 4 digits of your phone number. You can change your PIN in your account preferences; otherwise please contact the library.

Items can be renewed up to 2 times after the initial loan period, unless the item is on hold for another patron. The renewal period starts from the day you renew; in other words, if your books are due in a week and you renew today, you will only get one extra week (new due date will be 2 weeks from today). To get the longest possible extension, renew on or close to the due date.

If your items are late or you have fines, you may not be able to renew online; simply give us a call.
